

# NE529 – Risk assessment Project – PRA Wrapup

Name

University of Idaho • Idaho Falls Center for Higher Education  
Nuclear Engineering and Industrial Management Department

email

2024.01.04

## Acronyms

**PRA** Probabilistic Risk Assessment.

# 1 WASH-1400

(100)

Assuming formalized PRA started with WASH-1400, and given the all the case studies we have discussed in class, has its use as an assessment tool sufficiently advanced with technological developments? Does PRA truly capture risk adequately? What is missing? What can be improved? Critically discuss the use and role of PRA to assess risk.
